

I am letting you know that weakend the law of the telemarketers is a NO NO, The Law needs to stay or there is gonna be alot of lawsuits, I sure love that my phone is quiet and not being harassed by anyone. If You allow the telemarketers to call then there will be alot of lawsuits, I know as a homeowner I am getting tired of alot of junk mail I get in VIA Mail,Which I am looking into taking care of that and I am fighting the spam in the emails, I do have a right to privacy and DO NOT WANT ANY CALLS nor mail nor spam. There are alot of people in this world that love to harass other people and that is why this is happening and we got all these so called laws. PLease do not weakend the law the do not call list needs to stay and obeyed .I WILL START SUEING IF I GET HARASSED.  
Thank You
